In Russian MICRO 2016 the situation is as following:

There is a small rise in the number of races participants (approx. 10%). The main reasons are The World Championship "Micro" in Russia, and new areas such as Voronezh and Kazakhstan.

Due to difficult economic situation the athletes from Russia did not participate in regattas abroad.

The number of participants in local regattas is remains on the 2015 year level.

Manufacturers of boats have reduced their production.

The plan for next year is as following:

1. Institutional reform in the management of the Association
2. Preparation for the World Championship 2017
3. Races and Regattas of the new format with the aim of attracting foreign and nonresident athletes
4. Conversations with potential sponsors
5. Search and negotiating of new areas of regattas, convenient for athletes from different regions
