### Euro Micro, location, participants:

Euro Micro, Zülpich, - 2

Euro Micro Slovakia - 3

Euro Micro, Platte Taille, Belgium - 2

## World Championship, location, participants:

France, 6 Polish Boats

## Main actions of the year:

Microclass Poland organised in 2017 seven events from Polish Cup cycle of Regatta. 24 teams started there, 3 of them came from Slovakia and Germany. One new polish team has appeared in 2017. Our polish teams took also part in Euro Micro Regatta and World Championship in France. Unfortunately, we had 25% less number of crews comparing with the year 2015. We built 2 new boats in 2017. Polish crews have migrated on upper divisions inside the class. Additionally, a part of our teams developed their skills by training with qualified coaching staff.

## Next year projects:

We will develop our class by adding new yachts and activate crews which didn't start in 2017. We want to prepare team to starts in World Championship in 2018 by organizing open trainings to raise our abilities. We also change localization of regatta events to increase number of viewers. We want to be more popular. We are the host of World Championship 2018 so we want to prepare it the best we can. We try to obtain new, bigger sponsors. The most important for us is participation more number of boats in bigger amount of Euro Micro Regatta.
